

motorcycle battery 530 34

Y60-N24-A 12V 30Ah; 280A (EN)

The Q-Batteries 12V motorcycle batteries provide reliable performance and extended life for many types of motorcycles and other small vehicles. They are easy to install, have a robust construction and are ready for any weather condition.

The YB series are lead-acid batteries with very good cold-start performance. The batteries are pre-charged and are sold with a separate acid pack. When upright structure tilted and leakproof, these batteries provide excellent starting power in extreme weather conditions.

Application:

motorcycles, lawn mowers, jet skies

Features:

- maintenance free
- durable
- high capacity

Specification:

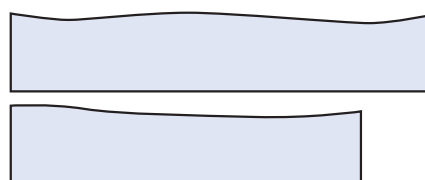

Voltage:	12V
Capacity:	30 Ah
CCA (Cold Cranking Amps):	280A (EN)
Weight:	9 kg +/- 3%
Terminal:	Y10
Circuit:	1 (positive pole left)
Hold down:	B00

Dimensions:

184mm Length x 124mm Width x 170mm Height

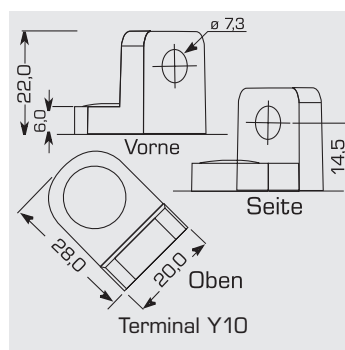

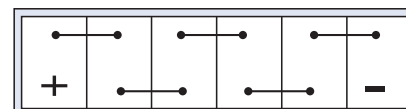

Base hold down B00
