

# motorcycle battery 511 13

YB10L-B2 12V 11 Ah; 160A (EN)

The Q-Batteries 12V motorcycle batteries provide reliable performance and extended life for many types of motorcycles and other small vehicles. They are easy to install, have a robust construction and are ready for any weather condition.

The YB series are lead-acid batteries with very good cold-start performance. The batteries are pre-charged and are sold with a separate acid pack. When upright structure tilted and leakproof, these batteries provide excellent starting power in extreme weather conditions.

## Application:

motorcycles, lawn mowers, jet skies

## Features:

- maintenance free
- durable
- high capacity

## Specification:

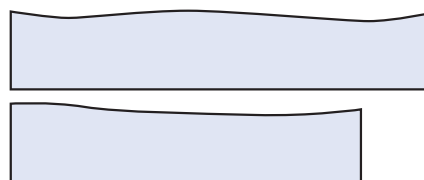

Voltage:	12V
Capacity:	11 Ah
CCA (Cold Cranking Amps):	160A (EN)
Weight:	4,1kg +/- 3%
Terminal:	Y8
Circuit:	0 (positive pole right)
Hold down:	B00

## Dimensions:

135mm Length x 90mm Width x 145mm Height

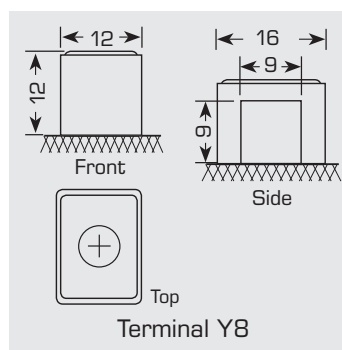

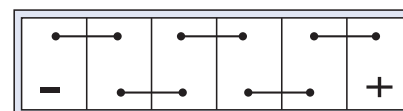

Base hold down B00
