

# motorcycle battery

YB14A-A2 12V 14Ah; 190A (EN)

The Q-Batteries 12V motorcycle batteries provide reliable performance and extended life for many types of motorcycles and other small vehicles. They are easy to install, have a robust construction and are ready for any weather condition.

The YB series are lead-acid batteries with very good cold-start performance. The batteries are pre-charged and are sold with a separate acid pack. When upright structure tilted and leakproof, these batteries provide excellent starting power in extreme weather conditions.

## Application:

motorcycles, lawn mowers, jet skies

## Features:

- maintenance free
- durable
- high capacity

## Specification:

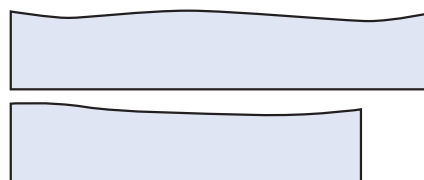

Voltage:	12V
Capacity:	14Ah
CCA (Cold Cranking Amps):	190A (EN)
Weight:	4,9kg +/- 3%
Terminal:	Y8
Circuit:	1 (positive pole left)
Hold down:	B00

## Dimensions:

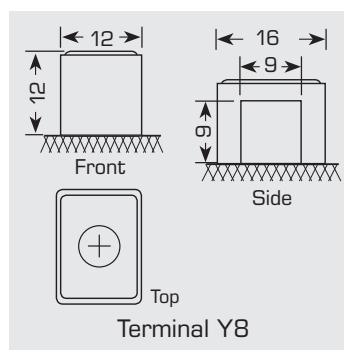

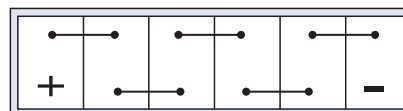

134mm Length x 89mm Width x 176mm Height

Base hold down B00
