

motorcycle battery

YB9A-A 12V 9Ah; 130A

The Q-Batteries 12V motorcycle batteries provide reliable performance and extended life for many types of motorcycles and other small vehicles. They are easy to install, have a robust construction and are ready for any weather condition.

The YB series are lead-acid batteries with very good cold-start performance. The batteries are pre-charged and are sold with a separate acid pack. When upright structure tilted and leakproof, these batteries provide excellent starting power in extreme weather conditions.

Application:

motorcycles, lawn mowers, jet skies

Features:

- maintenance free
- durable
- high capacity

Specification:

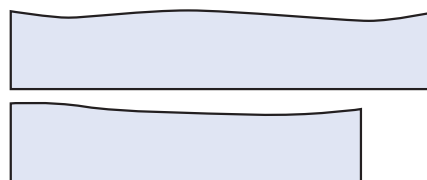

Voltage:	12V
Capacity:	9Ah
CCA (Cold Cranking Amps):	130A
Weight:	3,4 kg +/- 3%
Terminal:	Y6
Circuit:	1 (positive pole left)
Hold down:	B00

Dimensions:

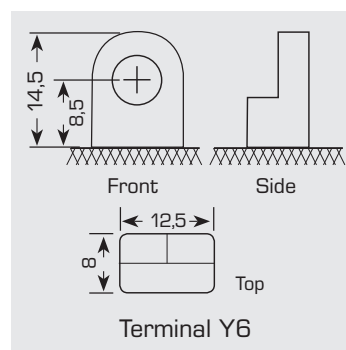

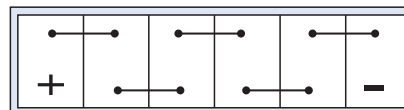

135mm Length x 75mm Width x 155mm Height

Base hold down B00
